Restriction Requirement

35 U.S.C. § 121

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

- a. Group I, claim(s) 1-13, drawn to a method for identifying CD8⁺ suppressor molecules, classified in class 435, subclass 7.1.
- b. Group II, claim(s) 14-26, drawn to a method for monitoring the clinical progression of HIV infection, classified in class 435, subclass 5.
- c. Group III, claim(s) 27-47, drawn to a method for identifying compounds that suppress HIV replication, classified in class 435, subclass 5.

2. The inventions are distinct, each from the other because of the following reasons:

3. Inventions I-III are all unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (M.P.E.P. § 806.04 and § 808.01). In the instant case, each of the identified groups is directed toward a different methodology with disparate scientific objectives (e.g., identifying CD8⁺ suppressor molecules, monitoring clinical progression to AIDS, identifying antiviral agents) that employs different reagents and protocols. Separate searches will also be required for each methodology. Accordingly, each group is clearly directed toward a different inventive concept.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, recognized divergent subject matter, and require separate searches, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. § 1.143). Applicant is also advised that the claims should be amended to reflect the election, where necessary.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(I).
